MATHEMATICS OF THE USSR–IZVESTIJA

ИЗВЕСТИЯ АКАДЕМИИ НАУК СССР

Tom 41, Nos. 1–6, 1977

Volume 11, Numbers 1–6 January–December, 1977 Pages 1–1375

Volume Index of Authors

Abraškin, V. A. *p-divisible groups over* **Z** 937

Ahiezer, D. N. *Dense orbits with two ends* 293

Belickiĭ, G. R. *Normal forms relative to the action of a group on a space* 1001

Bolibruh, A. A. *On the fundamental matrix of a Pfaffian system of Fuchsian type* 1031

Byhovskiĭ, È. B. *A boundary value problem for a quasilinear equation of first order with arbitrary dependence of the direction of the characteristics at the boundary on the unknown function* 397

Castro, C. Valdes and Mel'nikov, M. S. *On interpolation sets for the algebra* $R(X)$ 308

Cekanovskiĭ, È. R. See Malamud, M. M.

Čistjakov, G. P. See Fryntov, A. E.

Dančenko, V. I. See Dolženko, E. P.

Danilov, V. I. See Gizatullin, M. H.

Dao Čong Thi [Dao Chong Thi]. *Minimal real currents on compact Riemannian manifolds* 807

Dolženko, E. P. and Dančenko, V. I. *Dependence of the differentiability of functions of several variable on their rate of approximation by rational functions* 171

Dudučava, R. V. *Discrete convolution operators on the quarter plane and their indices* 1072

Dymov, A. Z. *On the behavior at infinity of the fundamental group of a homologically trivial manifold* 529

Džrbašjan, M. M. and Martirosjan, V. M. *Theorems of Paley-Wiener and Müntz-Szász type* 821

Farber, M. Š. *Duality in an infinite cyclic covering and even-dimensional knots* 749

Fryntov, A. E. and Čistjakov, G. P. *On the membership of lattice probability distributions in the class* I_0 441

Gizatullin, M. H. and Danilov, V. I. *Automorphisms of affine surfaces.* II 51

Gogoladze, L. D. *On* (H, k)*-summability of multiple trigonometric Fourier series* 889

Gorbacevič, V. V. *On Lie groups, transitive on compact solvmanifolds* 271

Grabovskaja, R. Ja., Kononenko, V. I. and Osipov, V. B. *On a family of generalized shift operators* 865

Iskovskih, V. A. *Fano 3-folds.* I 485

Jakubovič, V. A. See Lihtarnikov, A. L.

Kaljabin, G. A. *A trace problem for weighted anisotropic spaces of Liouville type* 1085

Kašin, B. S. *Diameters of some finite-dimensional sets and classes of smooth functions* 317

Kastro, K. Val'des. See Castro, C. Valdes

Katok, A. B. *Monotone equivalence in ergodic theory* 99

Kondrat'ev, A. S. *Finite simple groups with Sylow 2-subgroups of order* 2^7 709

Kononenko, V. I. See Grabovskaja, R. Ja.

Kotov, S. V. and Sprindžuk, V. G. *The Thue-Mahler equation in a relative field and approximation of algebraic numbers by algebraic numbers* 677

Krotov, V. G. *Representation of measurable functions by series in the Faber-Schauder system, and universal series* 205

Krylov, N. V. and Rozovskiĭ, B. L. *On the Cauchy problem for stochastic linear partial differential equations* 1267

Kufarev, B. P. *Potentials and correspondence of boundaries* 417

Kulikov, V. S. *Degenerations of K3 surfaces and Enriques surfaces* 957

Kuz'min, Ju. V. *Free center-by-metabelian groups, Lie algebras, and D-groups* 1

Kuznecov, Ju. A. and Morozov, S. F. *Some optimal problems in reactor kinetics* 1119

Lihtarnikov, A. L. *Absolute stability criteria for nonlinear operator equations* 1011

Lihtarnikov, A. L. and Jakubovic, V. A. *The frequency theorem for continuous one-parameter semigroups* 849

Ljubarskiĭ, Ju. I. *On the convolution operator on a finite interval* 583

Lukašenko, T. P. *Denjoy-Hinčin-integrable functions and their conjugates* 625

Malamud, M. M. and Cekanovskiĭ, È. R. *Criteria for linear equivalence of Volterra operators in the scale* $L_p[0, 1]$ $(1 \leqslant p \leqslant \infty)$ 725

Malyšev, F. M. *Complex homogeneous spaces of semisimple Lie groups of type* D_n 783

Martirosjan, V. M. See Džrbašjan, M. M.

Mel'nikov, M. S. *A criterion for points to belong to the same Gleason part of the algebra* $R(X)$ 1109

———. See Castro, C. Valdes

Merkur'ev, A. S. *On the imbedding problem with a non-Abelian kernel* 991

Mihaĭlec, V. A. *Distribution of the eigenvalues of the Sturm-Liouville operator equation* 571

Mitjagin, B. S. and Semenov, E. M. *Lack of interpolation of linear operators in spaces of smooth functions* 1229

Morozov, S. F. See Kuznecov, Ju. A.

Nesterenko, Ju. V. *Estimates for the orders of zeros of functions of a certain class and applications in the theory of transcendental numbers* 239

Osipov, V. B. See Grabovskaja, R. Ja.

Pal'cev, B. V. *On the Dirichlet problem for a pseudodifferential equation encountered in the theory of random processes* 1285

Pečerskiĭ, D. V. *A theorem on projections of rearranged series with terms in L_p*..... 193

Pesin, Ja. B. *Geodesic flows on closed Riemannian manifolds without focal points*..... 1195

Petrenko, V. P. *On the structure of exceptional sets of entire curves*..... 335

Plisko, V. E. *The nonarithmeticity of the class of realizable predicate formulas*..... 453

Rozovskiĭ, B. L. See Krylov, N. V.

Sataev, E. A. *An invariant of monotone equivalence determining the quotients of automorphisms montonely equivalent to a Bernoulli shift*..... 147

Sedleckiĭ, A. M. *On a class of biorthogonal expansions in exponential functions*..... 375

Semenov, E. M. See Mitjagin, B. S.

Skvorcov, V. A. *On the rate of approach to zero of the coefficients of null series in the Haar and Walsh systems*..... 665

Sobolev, S. K. *On finite-dimensional superintuitionistic logics*..... 909

Solonnikov, V. A. *Solvability of a problem on the motion of a viscous incompressible fluid bounded by a free surface*..... 1323

Sprindžuk, V. G. See Kotov, S. V.

Storoženko, È. A. *On the approximation by algebraic polynomials of functions of class L^p, $0 < p < 1$*..... 613

Strogalov, S. S. *The canonical module and anti-invariant elements*..... 1151

Suslin, A. A. *On the structure of the special linear group over polynomial rings*..... 221

———. *Locally polynomial rings and symmetric algebras*..... 472

Tankeev, S. G. *On homomorphisms of abelian schemes. II*..... 1175

Temljakov, V. N. *Asymptotic behavior of best approximations of continuous functions*..... 551

Tjurin, A. N. *Periods and principal parts of quadratic differentials on a rigged Riemann surface*..... 1359

Tkačenko, V. A. *Equations of convolution type in spaces of analytic functionals*..... 361

Tumanov, A. E. *A peak set for the disc algebra of metric dimension 2.5 in the three-dimensional unit sphere*..... 353

Voskresenskiĭ, V. E. *Remark on my paper "Stable equivalence of algebraic tori"*..... 219

Želobenko, D. P. *A description of the quasi-simple irreducible representations of the groups* U(n, 1) *and* Spin(n, 1)..... 31

Žensykbaev, A. A. *Best quadrature formula for some classes of periodic differentiable functions*..... 1055

The Sixtieth Anniversary of the Great October Revolution..... 1149
